7	A Greater Legacy Workshop	In a will we often bequeath money and tangible assets to those we love or organizations we want to endure; if we have enough assets, we might actually create a legacy for generations to come through such a gift. There is another form of will (some traditions have called it an "ethical will") that addresses our greater legacy -- not what we own, but who we are and what we most deeply value. In this workshop you will have an opportunity to rediscover the non-tangible assets that are precious to you, select people who might carry the legacy of these gifts, and prepare a will in which you will bequeath this greater legacy to each of them. Afterward you may choose to share your will with those you love while you are still with them, or you may wish to arrange for it to be read after your death, perhaps in a memorial	Bob Meiss 	\$20	\$25
